

Step 1: Open Wireshark

wireshark

Step 2: Select Interface

Usually:

eth0

Click Start Capture.

Step 3: Generate Traffic

Open another terminal:

ping 127.0.0.1

or

ping google.com

Step 4: Observe Packets

You should see:

ICMP Echo Request

ICMP Echo Reply

What Does a DoS Look Like?

In Wireshark you may observe:

- Large number of packets
- Repeated requests
- Same source sending excessive traffic

Example:

192.168.1.5 → 192.168.1.10
192.168.1.5 → 192.168.1.10
192.168.1.5 → 192.168.1.10

What Does a DDoS Look Like?

Traffic comes from many sources.

Example:

192.168.1.5
192.168.1.6
192.168.1.7
192.168.1.8
